Renewable Energy Solution

Alex new energy vision

At Alex new energy, we believe that sustainability is achieved through delivering quality products, acquiring top talent, and satisfying customers. It is through these channels that we focus our business objectives and core values.

Our vision is to become the supplier of renewable energy solutions for every household around the globe. We intend to achieve this by delivering value to our customers through high-quality solar cells and modules and providing premium solutions to the application of these products.

Alex new energy is passionate about energizing lives with renewable solutions in order to save our precious planet!

Headquarters
Shanghai, China

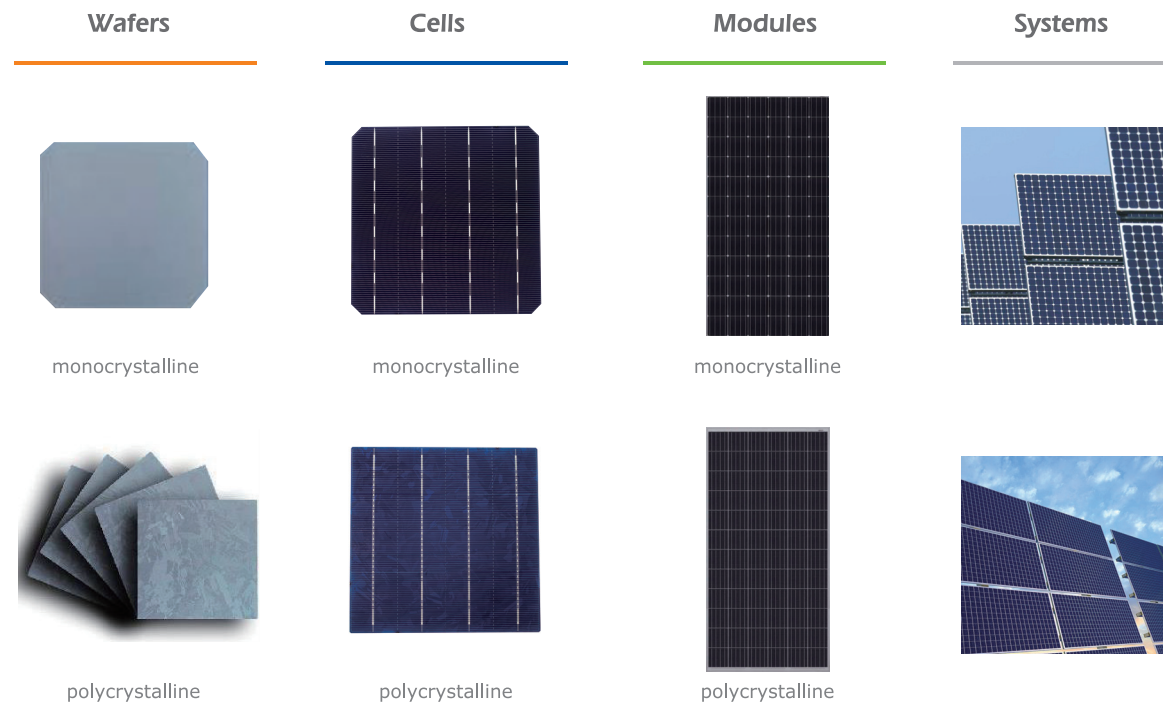

Alex new energy was founded in 2007 by HY International Holding Group.

Alex new energy is a high-tech enterprise engaged in the research and development, manufacture, sales, and technical support of crystalline silicon solar modules and solar cells, photovoltaic application systems, and other relevant solar products. We are committed to providing the highest quality product and superior customer service.

We are located in the Fengxian District of Shanghai with facilities that cover an area of over 200,000 square meters with a workforce of about 2000 employees. We currently have a vertically integrated annual production capacity of 1.2GW.

Vertical production value chain

Vertical integration from wafers to modules is employed in order to achieve sustainable cost advantages while ensuring product quality.

Production facilities

Alex new energy maintains the motto "Quality is the Priority, Customers are First!" Our production facilities are housed with the finest technology and equipment imported from Germany, Italy, and the USA, as well as

well as the best employees to manage the process. To ensure that quality underscores everything at Alex new energy, we scrutinize and control each process of the production chain beginning with the recruitment of highly-specialized employees, to the evaluation of material suppliers and equipment selection, to the maintenance, inspection and packaging of all our products. We ensure superior quality, timely delivery and prompt, reliable service to improve our client satisfaction.

Alex projects

Alex new energy is committed to an aggressive growth strategy and long-term development. We believe in deep-rooted partnerships and thus we consider financing many of our projects to develop win-win solutions. Our ventures listed below are just a snapshot of what we have to offer. We currently have projects reaching fruition and are in the process of developing others across the globe. By maintaining the principle; "Quality is the Priority, Customers are First", we will continue to provide products and services that uphold first-class standards domestically and abroad.

● Chyttlitz, Germany

Location: Chyttlitz, Germany
Installation Date: December 2010
Application Type: Commercial
Installation Type: Ground Mounted
System Size: **1.2MW**
